05 Edition (September 2025)

Chairman of the Board of Trustees

Shalom,

Praise the LORD, all is well.

We are inspired by the Word of God in Matthew 25:35-37, which says, "For I was hungry and you gave me something to eat, I was thirsty and you gave me something to drink..." This passage has motivated us to develop a plot of land to support the needs of the junior high school students living in the dormitory at the School of Eagles (SMPTK).

Adopting the holistic four-square farming concept, introduced to us by our foundation advisor, Mr. Andrew Hendro, and originally shared by Mr. Joshua Chua, we have begun planning to cultivate an initial plot of approximately 400 square meters (out of a total planned area of 3,800 m²). This land will be used to grow vegetables, fruits, and to raise fish and poultry.

God's design is truly amazing. He brought us into contact with Mr. Kris Poto Bissilisin and Nugroho from the IFGF Kupang church, who introduced us to Mr. Niko Banase, an Eco Enzyme practitioner. He personally demonstrated to us how to transform unproductive land (dry, clay soil) into productive agricultural land.

In this initial phase, we have prepared two trial planting beds. We have already begun the planting process, starting with water spinach. We believe that while we are the ones planting, it is God who gives the growth, and that this land will yield a harvest for His glory.

These sustainable steps will be continued until we can fully and optimally apply the entire holistic four-square farming concept. Thank you for your prayerful support and encouragement.

God bless you,

In Christ

On Scouting and Character Building

Through our Scouting activities, we focus on the essential pillars of character formation: discipline, self-reliance, and responsibility. These principles are foundational, as illustrated in Proverbs 25:28, which warns that *"a man who does not control his temper is like a city broken into and left without walls."* We strive to equip our youth with the self-control and strength to stand firm.

Free Nutritious Food Program (MBG)

This program is grounded in the message of Philippians 4:12-13, where the Apostle Paul writes:

"I have learned the secret of facing either plenty or hunger, abundance or need. I can do all things through him who strengthens me."

Celebrating Our First Service at IFGF Kupang Church

Our Progress

Social Area (Phase 2)

The installation and erection of the initial foundation and wall structure for the social area, using the bamboo that was prepared in the previous phase.

Our Progress

Septic Tank Relocation (Initial Phase)

- Excavation of the drainage line, marking the initial phase of the septic tank relocation for the boys' bathroom.
- This will be followed by pipe installation and the actual septic tank relocation in the subsequent phase.

Our Progress

Four Square Farming (Perimeter Fence)

Blend with nature

- **Materials:** A combination of Bamboo and Lontar Palm Fronds (Bebak).
- **Construction:** Bamboo is used for the structural posts and rails, while the Bebak fronds are used to form the protective barrier.

Our Progress

Four Square farming (tahap awal [bedengan])

All things are possible

"Behold, I am the Lord, the God of all flesh. Is anything too hard for me?"

- Jeremiah 32:27

This phase is a testament to transforming land that seemed unproductive (dry and clay-heavy) into fertile ground.

The process involved the following steps:

1. Construction of raised beds.

2. Preparation of the planting foundation.

3. First Fertilization: Application of chicken manure.

4. Second Fertilization: Application of livestock manure.

5. Layering of sifted soil.

6. Application of eco-enzyme and microbiology solutions.

7. Fermentation period.
